“ Dan, we still can't believe you are gone. I still expect to see you out watering your lawn every time we come around the corner or popping out to scare Kiona on her way home from the bus. I miss your funny stories and amazing sense of humor. You are so greatly missed and Kiona misses you so much!

“ I still can't believe you are gone Dan. You were such a dear friend and neighbor and will be greatly missed. I loved your sense of humor. You always made me laugh even when I was feeling awful You loved to tease my granddaughter and she loved you lots. She is only 7 but she misses you like crazy. You will never be forgotten as your spirit will always be here. We love you Karl and Kay

“ I'm sure going to miss him. Dan did so many things to help me. One of the funniest things I have told about him was the time he said he'd trim this huge vine for me. I happened to look out 5 minutes later and the bush was going past the window, you couldn't see Dan behind it at all. He later put in a trellis for the remaining piece. He was a great friend and neighbor.

“ This is hard for me because i've never been big on expressing my feelings. He was a dad to me when he didn't have to be. He came into life when I was 4 and has been my dad ever since. It wasn't always easy, but I am a better person because of him. He taught me how to be responsible and to work hard. He taught me how to hunt and was my best hunting partner. I will miss your sarcasm and tall tales. I love you Dad and will miss you.

BJ, I am sorry for your loss, I know how you are feeling. My dad was like that as well.
