“ Nancy, Tyler & Mitchell: I was saddened to learn today of the news that Dennis has passed away and now lives in the house of the LORD forever. He was not only a client of mine but one who I thought of as a friend. Dennis would always refer other clients to me and when flight training was an issue for our transition pilots, the insurance industry knew and respected the training conducted by Dennis Sturdevant was the very best! I'm sure Tyler will follow in his Dad's footsteps. I would like to pass on to the family a poem that reminds me so much of Dennis which reads as follows: **THAT MAN IS A SUCCESS** Who has lived well, laughed often and loved much; Who has gained the respect of intelligent men and the love of children; Who has filled his niche and accomplished his task; Who leaves the world better than He found it; Who looked for the best in others, And gave the best he had. - Don

“ Please accept my deepest sympathies for your loss. There is a void that cannot be replaced. Our loved ones have a permanent impact on our lives and they should never leave us. Their influence is invaluable all throughout our life, so they should be with us forever. The God of all comfort wanted mankind to live forever and never experience suffering, pain and death. He sent his Son to earth to erase everything that plagues mankind, particularly death. God's Kingdom headed by Christ will establish a Paradise earth and bring our precious loved ones back again so we can enjoy living with them happy and healthy and sharing all our experiences with them, never to loss them again.

“ Nancy, Tyler and Mitchell - I was utterly shocked to receive notice of Dennis' death - I hadn't even heard he was sick. I last saw him in November down at the field and he seemed fine. We've lost a fine guy and the best heli pilot I knew. He gave me the best (read: wildest and absolutely the most fun) ride of my life in one of the MD500N variants a couple of years ago while we were out shooting photos. He knew my dad was a navy pilot, and I'd grown up flying in all kinds of trainers and stunt planes. I made the "mistake", once we were done shooting pictures, of asking "so what can one of these really do"? Well, they can go really fast backwards, they can pull about 5 g's in the corners, and if you don't mind looking at the ground through your rotors, they do great inverts and hammerhead stalls, too! It took me about 3 days to get the grin off my face, and I still smile every time I think of that ride. I will miss him a bunch. - Scott

“ The many hours Dennis and I spent together in the air were some of the best times I've had. I'm sorry I will not be able to share his celebration on Saturday. I will visit you in the near future and hope you the very best. I will think of Dennis each time I take to the air.

“ Nancy and boys, We were so shocked and saddened by the news of Dennis' passing. We cannot feel exactly what you are going through but we understand how numbing everything must be. Please just hang in there. We loved Dennis - just a great guy and solid leader. Being a pilot myself (not close to Dennis's abilities), I know he is flying high now and at peace with the Lord. With love and sincere sympathy, Tom & Donna Ashwill
