“ I just found out about Don last week and though i will miss him, he is with the Lord and the one who he put his faith in.

I first met Dr and Donna Chittick in 1972, shortly after giving my life to the Lord, at the Wesleyan Methodist in Salem Or. I was mesmerized by his knowledge of the word of God, and his love for teaching on Creation and the first eleven chapters in the book of Genesis. Through the years we ran across each-other at different places; and he always remembered me.

After finishing bible school, I became the pastor of the Silverton Or Four Church, and had him teach, and everyone loved him. Years later as I was teaching Sunday School Class at Albany Oregon First Assembly Of God, I contacted him and requested he teach the class. And everyone in the class had the same response. You see he had the heart for God and his people and no matter where they held services, Don was happy to take time and teach Gods word. I want to thank the family for allowing all of us for sharing their Dad and Donna with us. He is sorely missed, and the Creation Science Institute lost an awesome Godly representative.

I so look forward to seeing him again in heaven, and seeing all the ones that are there because of his testimony. Because of Dr Donald Chittick, I am a stronger, better man and a servant as he was.

Gods Blessing to all of you <{>

“ Thank you Lord for Your servant Donald Chittick. In about 1984 AD he came to a church in Sweet Home, OR. and brought a light to our eyes of the veracity of God's word regarding His creation and that science is a testimony to His truth. He exposed the lie that we were burdened under and brought new life to our testimony of our Lord. He initiated what became a part time ministry of teaching of God's creation to my children and those around me, especially after Dr. Steve Austins discoveries at Mt. St. Helens. He was a gentle giant in teaching science and a Pauline example in his life of faith. I look forward to learning more in glory from this holy man.

“ I just now found out that our Lord has called home a valiant and great defender of the faith. My meeting of Don & Donna in 1968 changed my life forever so much so that my oldest son's middle name is Donald in his honor. We lost touch sometime back and I will regret not keeping our friendship current. Don was a fantastic teacher and communicator who stood for the truth of God's word. I shall miss him till we meet in heaven.

“ As an adult, I felt the weight of "believing in spite of," fall off of me with tremendous relief as Dr. Chittick presented, to parents and children, in our church auditorium in Dallas, Oregon, approximately 25 years ago. Every evidence shared, bringing more freedom and excitement as the presentations and slide proof progressed. When I approached him after, in shock, I shared my thanks and amazement that after 16 years of schooling including my BS Ed. degree, I had never been taught ANY of what he had shared, and what the incongruence become doubt, now gone, had cost me in my faith and left me with greater conviction and reason to continue home-schooling. Just yesterday, I heard a young girl saying, she didn't really believe in the bible but in science. Because of Dr. Chittick today I search for a book to give her something of the experience Dr. Chittick gave me and mine. Our school system is still robbing our youth. As believers, our work is not yet done. Dedicate it to God and this wonderful man. Vicky Everest (2017)

THE CONTROVERSY by Dr. Donald Chittick is probably the best introductory book on the issue of creation- evolution. He spoke at our church in Cupertino California in 1998

“ My name is Angela Gering. I would like to take a moment to say thank you. You see, when I was a young teen... I was attending Sandy Assembly of God church. It is located in Sandy Oregon. Dr. Chiddick did two services on a Sunday. He presented his ministry and gave his personal testimony. At this time, My science class in school was studying evolution verses creation. My teacher strongly held a standpoint for evolution. I had a lot of questions. Because of hearing Dr. Chiddick, I had a different perspective, my questions were answered. But, as I heard his testimony, it changed my mind on what I believe. It gave me a strong conviction on creation. And as a result, I became a Christian that night.

“ I am just re-reading 'The Puzzle of Ancient Man' and was searching for more information from Donald.

I came across this wall and just wanted to let his loved ones know how much I enjoyed his writing and research.

I look forward to meeting him someday in Glory...

The Lord bless you all.

“ Dear Family and Friends of Dr. Chittick:

On behalf of the Mark Roberts, James Roberts families, we send our condolences on the home going of one of the greatest scientists God has ever created: Dr Donald Chittick. He was a remarkable Godly man with a humble and sweet spirit. I am sure God is giving Dr. Chittick a tour of his new home. We look forward to joining him and Jesus, soon and very soon. My God comfort you at this difficult time of personal loss.

“ Dear Donna and Anna and family,

I just found out today of Dr. Chittick's passing. I am sorry I did not know or I would have come to the service.

He meant so much to me and I am so thankful for the visit I had with the two of you at the end of October. You were such a blessing to me. My son Jed was teaching his son this morning about creation and mentioned it on face book. So I googled to give him your information and saw the notice of his passing. Jed is passing on the tradition of teaching creation and I am too with my grandchildren. Nathan and I planted a garden last year and we talked and learned about how things grow.

Dr. Chittick and you Donna as his partner have given us volumes of scientific proof of God our great Creator. Generations to follow will know these truths because of what you have written.

Your gentle spirits have also taught of unconditional love and grace and perseverance in time of trouble and of strength.

God will continue to bless you and your work.

Love and blessing,

Merry Harmon-Penna
