“ Karen, you always let me pick your brain at work even years after we went to different areas. You were one heck of a lady! You and your family are on my family prayers. Peace be with those that are better people for knowing you. You will be greatly missed ❤️

“ I'm still in disbelief - I can't imagine a world where my Rocker Chick isn't in it, calling me BDWB, carrying on & laughing like we always did - she was truly a kind & caring soul and I will miss her - big hugs to everyone
