“Lois and I have shared a few HARD times when life was hard on parents and children were young, sweet and innocent. Wondering how bills were going to be paid and next to impossible to explain how grim things looked. I remember her guiding Todd and little Amy expertly as a mother through those times. The hardest part of life that you would never want to repeat...if you had too you would want Lois there because she "got it". You can't put everything into words because somethings transcend spoken or written word. Life truly is a battlefield. See you later soldier.
