“ It is with immeasurable sadness that we announce the death of Sheran Darlene (Suran) Jones who passed away on September 30, 2025 just four days shy of her 83rd birthday.

Until the end, Sheran maintained an unwavering love for her family. She was losing her memory, but she did not forget the love of her life, Gary Jones, who she married on March 31, 1962. They had a loving and supportive marriage for 58 years until Gary passed away in June of 2020.

Together they raised three children Debbie Foushee, Steve Jones and Stacey Jones, who passed away in May 2023. As parents they were united in the values they taught, the affection and love they shared and the work ethic they insisted on.

Our Mom showered us with love. She made the best dinners, that we shared nightly at the family table. She grew a huge garden, which she used in her cooking. She went to every event we ever participated in, she was a vault and kept our secrets, she always had our backs (even when we didn't necessarily deserve it) and she was supportive, respectful and so encouraging to us.

The real joy for Sheran came when she became a grandma: She was thrilled with her new role. She spent as much time as possible with her four grandsons, Cody Jones, Colby, Foushee, Brodie Foushee, and Cooper Foushee. She babysat anytime we asked, she read to them, played games with them, took them to the park and was willing to take them to appointments if needed. Her whole goal was to create deep relationships with them and make sure they knew they were loved.

Sheran is survived by her two children, Debbie and Steve, her four grandsons, three great grandchildren, her brother, Dale Suran(Delores), her brother in law, James Davis and many nieces and nephews. She will be deeply missed, until we meet again.
