“ I need no response. Just know that I loved your mom for her wonderful spirit and joy in life. We worked together at Easter Seals for four months and she, myself and Mary Jo became a trio of friends. I don't know if I would have come through that point in my life without their friendship. I am in a state of shock over her too-early departure and want to let you, her family, know what she meant to everyone. She touched so many lives and when I think of her it will be her wonderful smile I remember most. Rest in Peace, My Friend. You are loved.
