“ My dear Susan, i just found out you had passed away. I'm shocked and very sad. I had no idea you had been ill. I wish i had known. I do remember recently you called me and left a heartfelt message for me. Telling me "how much you love me and to always remember that." That meant so much to me. I feel awful i didn't text you at Thanksgiving and Christmas. I will never forget you. Our fun, fun times growing up together. You and Marilee, two little peas in a pod. I've always loved you like a little sister. You and Marilee were the two funniest people i've ever known. So many, many fun times i have in my heart. You're in Heaven now, with all the people you've missed and love. Thank you for always hugging me so tight, telling me you love me and making me laugh. I love you Susan and will miss you, your kindness, your prayers. you for being you. I've known you since you were a little girl. I feel blessed for that. Rest in peace my dear, dear friend and little sister. God Bless you for all the good you did for people.

With love,

Julia Oldham
